

# How will you grow?

**Make, share, repeat**

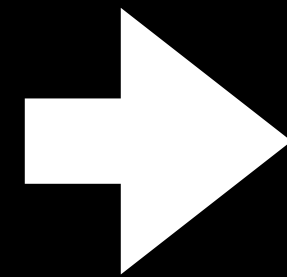

## **Make things**

The best way to showcase this product is to use it. Not only will we make things, but we'll have well-known makers make things too.

## **Share**

Get a large following on social media showing what you can build.

## **Convert**

Convert followers to users. Anyone can create things for free. You only pay when you purchase the parts for your project.

# What's the status?

**We're at the concept and validation phase**

We know there's a market. We know it's possible to build. The next steps are to build a prototype and get it in front of real users.
